- 2008-09 40th Branch Anniversary

AAUW Amador Branch Some Highlights of the Past 10 Years

Home Tour

This year will mark the 37th AAUW Amador Branch Home Tour. The Home Tour is our Branch's primary means to raise funds for local women and girls for college scholarships. It also provides the necessary funds to support Tech Trek scholarships, the National AAUW Legal Advocacy Fund and Educational Foundation contributions, and several local programs such as Sober Grad night. In addition, the Home Tour also provides operating funds for the Branch. For all thirty-seven Home Tours, our Branch members have provided the planning and the women-power that makes this event a great success.

Scholarships

The result of each successful Home Tour is the ability to award multiple scholarships each year to local women and girls. Since the Amador Branch initiated the program in 1975-76, over \$50,000 in scholarships have been awarded to over 60 women enabling them to attend Community College or pursue their upper division or graduate studies. During the 2008-09 award year, the Branch will add a re-entry scholarship, reaching out to additional women in the community.

Tech Trek

Starting in 2002-03, our Branch reinstated support for Tech Trek a program that sends 8th grade girls to a summer science camp at Mills College. The Branch has sent two girls each year (three in 2007-08), and if the wonderful reports that we get back from the participants each year have any meaning, the girls both enjoy themselves and are encouraged to develop an interest in Science and Math that may translate to perusing college and career decisions in these fields.

College: Getting Your Student on Track

From 2003 to 2008, the Amador branch presented this free program as a community service for junior high students and their parents. The program offered advice on planning for college or training programs after high school, with topics covering an overview of types of colleges and training, sources of financial aid, and courses to take in high school. The program was presented 15 times and reached about 250 to 300 parents and students.

Bead for Life

This event raises money from the sale of handmade jewelry to benefit Ugandan women. The Amador Branch sponsored two jewelry sales both of which were extremely well attended by the community. We raised over \$9,600 for the Bead for Life Foundation.

Educational Programs Open to the Community

There have been too many wonderful programs to mention, but they include environmental programs, county planning issues, personal finances, international women's issues, health care concerns, local authors, and candidate forums.

Local Organizations Supported by AAUW Members

Branch members individually support many local organizations through fund drives sponsored by our Branch including the Women's Health Forum, Operation Care, Project Thanks, and the community Food Bank.

AAUW Amador Branch

This year the Amador Branch of AAUW celebrates our 40th anniversary. Our theme for the year is “40 Years Helping Women Survive and Thrive. Over the past 40 years, our branch, which was chartered in 1969 with 49 members, has consistently supported the women of Amador County. We provide educational opportunities through scholarships, community-wide programs, and support many local organizations. Just as important, however, is the support and opportunities to grow that we provide to each other as members of a vibrant, intelligent, and caring group of women.
